

The Connecticut Surveyor

September 2015

Volume 20, Issue 9

Connecticut Association of Land Surveyors
78 Beaver Road, Wethersfield, CT 06109

Adverse Possession in Connecticut

Surveyor and legal expert **Kris Kline** will teach a comprehensive first-time-ever course on **Adverse Possession and other forms of Unwritten Rights in Connecticut**. This unprecedented tutorial will cover important information that all land surveyors need to know. Specific topics include: Adverse claims against the state; the effect of a survey on adverse claims; Claims of Submerged lands; The Lost Grant Theory; Acquiescence; Boundary by Estoppel. Contrasts will be pointed out between Connecticut and other nearby states. Although all surveyors should be familiar with this complex area of law, no Connecticut-specific course has ever been offered.

Please don't miss this important
one-time-only opportunity.

Friday, September 11, 2015

ITBD CCSU, New Britain, CT

Registration is \$230 and limited to CALS
members and members of other state
surveying societies only.

Gary Kent to Speak on the Judicial Role of Surveyors at the Annual Meeting on November 6, 2015

Mark your calendar so that you don't miss this opportunity to attend a very informative presentation given by a Nationally recognized speaker as well as several other great presenters.

The keynote speaker at the CALS 48th Annual Meeting will be Gary Kent. Mr. Kent is Director of Surveying at The Schneider Corporation, a 42-year-old consulting firm based in Indianapolis providing solutions in surveying, GIS, 3D graphics, architecture, and civil, municipal and transportation engineering. A past-president of both ACSM and the Indiana Society of Professional Land Surveyors, Gary has a BS degree in Land Surveying from Purdue University and is registered to practice surveying in Indiana and Michigan. He is chair of both the NSPS/ACSM committee and the ALTA committee on the ALTA/ACSM Standards. He currently sits on the Indiana State Board of Registration for Land Surveyors and is also a member of the adjunct faculty at the Purdue campus in Indianapolis where he teaches Land Survey Systems, Legal Descriptions, Boundary Law and Property Surveying.

Other guest speakers will include:

- Jim O'Shea, Executive Business Coach - Achievement Unlimited of Connecticut
- Kari Olson, law firm of Murtha-Cullina - Customer Service
- John Carbone, MW Financial - Business Protection, Succession & Survival
- John Doody, L.S., P.E. - Professional Development

Don't be afraid to give up the good and do the great!

CALS Annual Meeting

Time is flying by and before you know it the 2015 Annual Meeting will be here on November 6, 2015.

Once again we will hold the convention at Saint Clements Castle in Portland, CT.

So many of our members want to contribute to the annual auction but never know what to buy. CALS Secretary Susan Mattern has come up with a fabulous idea that will not only raise funds for CALS, but will be fun and easy for everyone!

THEME BASKETS!

You pick the theme and you decide how much you want to spend, and that is it - we will put a professional looking basket together. Who knows, you might even buy a basket for a Christmas gift!

Some inventive suggestions are:

- Micro Beer
- Nip Assortment
- Tex Mex
- Thanksgiving - Taken
- Christmas
- Games
- Jerky/Woodsman
- Craft Beer
- Victoria's Secret - Taken
- Chocolate
- Breakfast
- Picnic
- Champagne
- Elegant Snacks
- Crackers & Cheese
- DVD's
- Italian
- Outdoor Adventure
- Tailgating
- Travel
- Fishing
- Martini
- Car
- Sports Team
- Camping
- Golf/Sailing
- Hurricane/Lights Out

Get Creative!

Support CALS!!!

Don't be afraid to give up the good and do the great!

Professional Development

Three Rivers Community College
CIV 150/151 Surveying I with Lab (4.5 credits)
Classes begin August 31, 2015
In-state tuition (approx.) \$850

Three Rivers Community College Civil Engineering Technologies Department is offering Surveying I for the Fall 2015 semester. The class meets M/W 2-5pm and includes weekly lab activities. The course is an introduction to survey field procedures and modern equipment, including total stations, levels, and GPS. Students will establish and run a conventional traverse and learn to perform all of the reductions utilizing a basic calculator.

Please contact the instructor, Kevin Franklin, to register or for more information at kfranklin@trcc.commnet.edu.

ALTA Land Title Survey Requirements

The American Land Title Association (ALTA) was founded in 1907 and is the national trade association and voice of the abstract and title insurance industry whose members search, review and insure land titles to protect home buyers and mortgage lenders who invest in real estate. ALTA and the American Congress on Surveying and Mapping (ACSM), now the National Society of Professional Surveyors (NSPS) established the first set of Standard Detail Requirements for Survey drawings in 1964. These instructions were established to nationally standardize the requirements for survey drawings that were to be used for ALTA loans. Updates to the requirements often occur every four-to-six years. The last recent revision took place in 2011 in conjunction with NSPS. Notable changes implemented included:

- Requirement to reference a title report on the Certificate of Survey
- Requirement to include Standard ALTA Certification
- Greater attention to offsite easements and servitudes
- Changes to the Table A items for Optional Survey Responsibilities and Specifications.

An ongoing revision is scheduled to become effective February 2016. Gary Kent, chair of the NSPS committee on the ALTA Standards has agreed to come to Connecticut on April 19, 2016, and present a full day seminar on these new changes. Reservation forms will be available in the spring but seating will be limited.

You can reserve your seat now by calling the CALS office.

Don't be afraid to give up the good and do the great!

Newly Licensed Land Surveyors

Congratulations to the following professionals who passed the exam in April and earned their land surveyors license in Connecticut:

- Atilla Bereczky, L.S., Fairfield, CT
- Russell L. Hall, Meriden, CT
- James M. Pretti, Jr., Wallingford, CT
- James D. Sens, Rockaway, NJ
- Timothy G. Wyllie, Jr., Harwinton, CT

Support Hobbs Team

In April, Past President Andy Tupper became a grandfather to prematurely delivered identical twins Finn and Hobbs. Finn passed away after only two short days and Hobbs has endured two traumatic surgeries with more to come.

A family friend has designed T-shirts as a fund raiser to support the huge medical expenses that the Tupper family will have to endure.

LightSquared Submits GPS Market Study to FCC

A “GPS market review” submitted to the Federal Communications Commission (FCC) this week diverges in methodology and results from [a preliminary study of U.S. benefits of the Global Positioning System](#) provided earlier this year to the National Space-Based Positioning, Navigation, and Timing (PNT) Advisory Board.

The LightSquared review was presented to FCC staff on Tuesday (July 28, 2015) by Gerard Waldron and Reed Hundt, a former chairman of the Federal Communications Commission (FCC) from 1993 to 1997, both attorneys representing LightSquared in the company’s efforts to revive a proposal to build a terrestrial broadband service in RF bands next to those in which GPS and other GNSS signals are broadcast. The market assessment was reported yesterday as an *ex parte* filing in the matter of the FCC International Bureau (IB) Docket No. 12-340.

The GPS study prepared for the PNT Advisory Board by Irv Leveson, a consultant to ASCR Federal Research and Technology Solutions, LLC, was described as “conservative” by Leveson because it did not fully cover many GPS applications including those depending on GPS timing information. Nonetheless, its figures far outstripped most of those provided by LightSquared. For instance, the company’s figures for “high-precision” GPS — covering surveying, precision agriculture, and heavy construction — totaled \$1.29 billion in 2015, while Leveson’s figure for the same categories in 2013 was \$30.3 billion. The total of benefits in Leveson’s study fall into a range of \$37.1–\$74.8 billion with a midpoint of \$55.8 billion.

The divergence in figures arises primarily in the nature of what is being counted. LightSquared’s number appear to only reflect GPS user equipment *sales revenue*, including calculations of the GPS value in a multi-technology device such as smart phones. Leveson’s figures also include the associated *benefits* of applying GPS technology, such as increased productivity, innovation and development of new products and markets, scientific research, improved environmental monitoring, time and cost savings, reduced loss of life, injury, and disability.

In addition to the narrow interpretation of the value of GPS, the LightSquared market review presentation was filled with comments that appeared designed to diminish the utility of GPS by pointing out its well-known vulnerability in certain operating environments (such as indoors) and the growing integration of other positioning technologies with GPS to provide more robust PNT solutions. A close reading of those comments, however, suggests they actually acknowledge and reaffirm the centrality of GPS for PNT, as the other technologies such as WiFi or inertial cannot provide a global, absolute positioning capability and serve fundamentally as augmentations to GPS, not replacements.

CALS Scholarship Recipients

Oliver H. Paquette Scholarship -

Oliver H. Paquette, P.E., L.S. 1931-1992

Ollie Paquette was a Charter Member of CALS and a career DOT employee, longtime CALS Member and Korean War Veteran. He became the DOT Chief of Surveys in 1985, and continued at that capacity until his retirement in 1992. Unfortunately, his life and retirement was cut short by a fatal brain aneurism. He was a DOT Right of Way / Boundary / Geodetic expert surveyor. The staff in Survey Operations and the Office of Rights of Way relied heavily on his knowledge base. When any tough question arose, one could be assured that he knew the answer..."Just ask Ollie" was often heard in Central Surveys. This Memorial Scholarship was established to commemorate Ollie's gifts of knowledge to all of the DOT and passion for the Land Surveying Profession.

Melissa Soucie is this year's recipient of the Oliver H. Paquette Scholarship Award.

Melissa is a graduate of the University of Connecticut and currently enrolled in the Professional Science Master's in Engineering and Business program, concentrating in Surveying Engineering at the University of Maine.

She is thrilled to have the opportunity to continue her academics while gaining practical applications for her studies at the LRC Group, a Firm Member of CALS.

Through this award CALS has aided providing Melissa an opportunity to become a well-rounded and informed surveyor.

Don't be afraid to give up the good and do the great!

CALS Scholarship Recipients

William Berglund Scholarship –

Bill Berglund was a Firm Member of CALS until his death in 1989. He represented the members in Litchfield County as a CALS director attending monthly meetings regularly. He loved to play golf in his free time, and sponsored CALS to have our golf outings at the prestigious Torrington Country Club for many years. This year, John Fanotto III received the William Berglund Scholarship Award.

John is a graduate of Notre Dame High School in West Haven. He is currently a senior at the University of Maine, Orono in the Civil Engineering Technology Land Surveying Department.

John has been in the field, working alongside his father at Fanotto Civil Engineering and Land Surveying in Seymour since middle school. He

has worked on numerous survey and engineering projects, including surveying and designing the new addition and parking lot to his high school, Notre Dame West Haven. John has worked on research, boundary and topographic surveys, FEMA elevation certificates, construction stakeouts, as-builts, site planning, and numerous other projects. He also maintains family rental properties and is handy at plumbing.

John is a member of the Knights of Columbus and volunteers his time to that organization. A life long Connecticut resident, John enjoys gym time, skiing, traveling, swimming and hiking with his Labrador Retrievers.

CALS Scholarship Recipients

William W. Seymour Scholarship - Bill Seymour was a dedicated Firm Member of CALS. He served as president from 1987-1989, and worked tirelessly to defeat the State imposed tax on surveying services during his administration. This year, CALS is pleased to award Ryan Smith with the William W. Seymour Scholarship Award.

Ryan was first introduced to surveying at Waterford High School, which is one of the few schools to offer a surveying program in the area. Through the surveying curriculum, he became interested in Civil Engineering. He is currently in his second year in the AS Civil Engineering Technology program at Three Rivers Community College. He will also be receiving his Surveying Certificate as well.

After graduation, Ryan hopes to transfer to the University of Connecticut to pursue his BS degree in Civil Engineering with a concentration in land surveying and geomatics. He is hoping to find employment as an apprentice while studying at UConn.

Like most young men who enjoy the outdoors, Ryan is a big sports fan and he follows all major games. He enjoys working in the yard and loves to play backyard games in the summer including corn hole, batmiton, and ladder golf. During the school year, Ryan tutors mathematics for extra income.

Don't be afraid to give up the good and do the great!

Seminars include:

- Journey to the Moving Center of the Earth:
The Evolution of the National Spatial Reference System,
Presented by Dan Martin, Northeast Regional Geodetic Advisor
- Water Boundaries on Lakes, Ponds and Rivers:
Littoral and Riparian Rights and the Public Trust Doctrine,
Presented by Liam Murphy, Partner, Murphy, Sullivan & Kronk

Register online at the VSLs website.

Hope to see you on the 18th!

New York State - Specific LS Exam Fall Review Workshop

Presented by Dr. Joseph V.R. Paiva, Principal & CEO of GeoLearn

September 11-12, 2015

Hyatt Place, Malta, NY

Course Objective: To familiarize land surveying applicants, potential applicants and surveying technicians with the issues, resources and content required to successfully complete the New York State land surveying licensure exam.

Description:

This review program is customized to address the needs of surveying professionals planning to sit for the New York State surveying licensure exam. The class will offer a comprehensive review of topics based on the licensing examination test blueprint, as published by the NYS Education Department Office of Professions:

- Computation/Analysis
- Documentation/Land Information Systems
- Ethics/Professional Responsibility
- Land Planning/Design
- Legal Principles
- Measurement/Location
- Monumentation
- Project Management
- Research

Time will be spent discussing testing strategies for a multiple-choice exam and how to prepare to sit for one.

This review course has been strategically planned to coincide prior to the NYS surveyor licensure exam date. Participants will leave with a voluminous reference manual containing NYS rules, statutes, laws and other pertinent study reference materials, including technical references, sample test questions and case law summaries.

Contact NYSPLS at contactnyaspls@nysapla.net, 518-432-4046

Surveyors Historical Society Rendezvous September 9-13, 2015, Bellingham, Washington

Don't miss your chance to be a part of the 2015 SHS Rendezvous

This event will be a great opportunity to explore the beautiful Pacific northwest with our hosts, and learn about the fascinating "Surveys and Surveyors of the Salish Sea".

A focus on the International Boundary Surveys, coupled with an adventure to San Juan Island will make this year's Rendezvous a once-in-a-lifetime experience.

The committee has planned an amazing event, with so much to see, learn and do! Great presenters, fascinating subjects and a chance to explore the area will provide a unique opportunity for all who attend the event.

Immediate Need for multiple positions at a relaxed and friendly land survey firm. Positions include:

- **Entry Level Field Surveyor** (willing to train the right candidate)
- **Experienced Party Chief** with research and AutoCAD abilities.

Please send resumes to: ctsurveyjob@gmail.com

- **Survey/Field Technicians** to join the Redniss & Mead Team of Land Surveying, Civil Engineering, and Land-Use Planning professionals in a growing firm located in Fairfield County, CT. Candidates should have 3+ years experience in the surveying field and experience in the processing and preparation of all types of surveys, including boundary surveys, topographic surveys and construction layout. Knowledge of AutoCAD and Data Collection is required. Responsibilities include performing fieldwork, processing and mapping of fieldwork, coordination with clients and in-house staff. Work for this position will be on a variety of project types including residential, commercial and institutional. For consideration, please forward your resume to Lawrence W. Posson, PLS, Director of Surveying: L.Posson@rednissmead.com. We are an Equal Opportunity Employer and offer a competitive compensation package including salary, medical benefits, paid vacation, paid holidays, performance bonuses, 401K retirement plan, direct deposit, and a health club membership.
-

Pereira Engineering, LLC is an established Civil/Environmental/Land Surveying firm located in Shelton, CT and we are looking to fill the following positions:

- **Instrument man/survey technician:** We are seeking an experienced Instrument Man / Survey Technician with a minimum of five (5) years experience in all facets of land surveying from boundary surveying to construction layout. The qualified candidate must be highly-motivated and detail-oriented and must be familiar with Trimble Instruments, Trimble Data Collectors, and GNSS systems. AutoCAD Civil 3D experience a real plus! Duties include field surveying, downloading/uploading survey data, land record research, and AutoCAD drafting.
- **Civil Engineer:** We are seeking a Civil/Site Engineer experienced in various types of site development projects including residential, commercial, and municipal projects. Responsibilities include the design of site layouts, subdivisions, septic systems, storm and sanitary sewers, stormwater management systems, grading, roads, and hydrologic/hydraulic studies. Duties will include preparation of plans, specifications, and calculations as well as coordination with other design professionals and public officials. Qualified candidate must have a B.S. in Civil Engineering from an accredited engineering program and must be proficient with AutoCAD Civil 3D and other commonly used design and drainage analysis software. Candidate must also be organized, highly-motivated, and detail-oriented.

Pereira Engineering offers a very competitive salary and benefits package including Major Medical Insurance, 401(k) Profit Sharing Plan, Life Insurance including Short-Term Disability and AD&D coverage, paid Vacation, Holidays, Sick Days, and Direct Deposit for payroll.

Please email resume and salary requirements to: joe.pereira@pereiraeng.com or fax to: (203) 944-9945.

- **CAD Technician** with Land Surveying Experience.
Full time for Civil Engineering/Surveying company located in Greenwich, CT.
Preferred 5 years experience. Excellent salary and benefits.
For more information contact risoli@optonline.net.
